200 Abbott Park Road  
Bldg: J48, Dept: AH12  
Abbott Park, Illinois 60064

September 29, 2010

Dear Doctor,

Abbott Animal Health recently received notification from our manufacturer of a delay in shipment of diazepam, List # 3213-12. As a result, diazepam will be on temporary backorder.

As an alternative to diazepam, Abbott Animal Health is able to supply you with midazolam, List # 2596-05. Midazolam, like diazepam, is an injectable benzodiazepine<sup>1</sup> and is supplied as a 10mL vial containing 5mg/mL.

We appreciate that this diazepam backorder may cause inconvenience for you. In consideration for this inconvenience, Abbott Animal Health is offering midazolam at a reduced price to our distributor partners. Please contact your distributor for product pricing details.

If you have any questions, please contact Abbott Animal Health Customer Service at 888-299-7416.

Abbott Animal Health would like to apologize for this inconvenience and take this opportunity to thank you for being an important customer.

Sincerely,

A handwritten signature in cursive script that reads "Alicia Valestin".
